CLEAN WATER WITHOUT THE WATER BOTTLES.

Approximately 70% of water bottles in the United States are not recycled and as many as 90% worldwide.¹ Not surprisingly, over 8.8 million tons of plastic end up in the oceans every year.²

With one Pentair Everpure cartridge, you save 7,573 water bottles** and the crude oil and energy used to produce and transport them.

**
Calculation based on the H-104 filter cartridge performance.
